[stationers.org/events](http://stationers.org/events)

### Cheque with the form below

Payable to 'The Stationers Company'. Send form to Stationers' Hall, Ave Maria Lane, London, EC4M 7DD  
FAO Lucie McCord

The Tri-Livery Digital Media Group from the Companies of Stationers, Marketors and Information Technologists presents:

### How Blockchain is Changing our Lives

This event will inform and explain how the 2,942 blockchain start-ups which have launched since 2016 will change our personal and professional lives. The emphasis will be insightful, practical and delivered jargon free.

The evening discussion will be led by **Omaid Hiwaizi** (Marketor and Blockchain Marketing Consultant) with a panel of speakers from a wide range of blockchain businesses and interest – from Health to Advertising and Supply Chain to Government. These experts will explain, from first principles, what the real use-cases are and where Blockchain is heading next.

·**Mo Tayeb**, COO and co-founder of Medicalchain.

·**Rob Gaskell**, CEO and co-founder 2030 Asset Management and Group Head of Risk. Rob also works with the London Stock Exchange

·**Steve Ackland**, CEO AiM focusing on micro service platforms and blockchain across private sector and government.

·**Gary Barnett**, CTO Airsensa using a private blockchain for data analytics and pollution data mapping

·**Dr. Stylianos Kampakis**, expert data scientist, honorary research fellow at the UCL Centre for Blockchain Technologies and a member of the Royal Statistical Society.

Our aim is to unlock and demystify what is often assumed, wrongly, to be a highly technical subject solely about cryptocurrencies. Are you asking yourself whether blockchain delivers its promise of better security, increased efficiencies, more personal control and mobility of data, safer banking and more transparent contracts?

Come and join the debate to find out more! Following the debate, a light buffet supper will be served.
